### Birds + Roses' Rose Quartz Hydrating + Firming Face Mask (\$98)

Effective self-care requires high-quality products that actually work. While this mask might be up there price-wise, it's definitely worth it for the skin-loving ingredients and luxurious feel. The crystal-infused mixture firms the skin, minimizes pores, calms inflammation and generally turns back the clock to give your mom the youthful skin she's been dreaming of. If you're lucky, she might even let you try it out, too.
